

# Venture capital investment flows in Europe

**dealroom.co**

May 2018

# Venture capital investment into Europe has been increasing from all sides

## Europe

## USA

## Asia

## Rest of World

# Only Asia has increased its share of investment, both by amount of capital and by number of rounds

Market share by \$ invested capital into Europe (by location of investor)

Market share by number of European investment rounds (by location of investor)

# Asian investors focus on \$20M+ rounds. Already 18% of such rounds have an Asian investor

As could be expected, larger rounds have a higher participation rate from USA and Asian investors (2017)

USA investment into Europe: no big change in approach

% of European investment rounds with an Asian investor

# USA & Asian investors are mainly interested in the UK and Germany (but they're even much more interested in Israel)

% of rounds with a USA investor

% of rounds with contribution from Asia

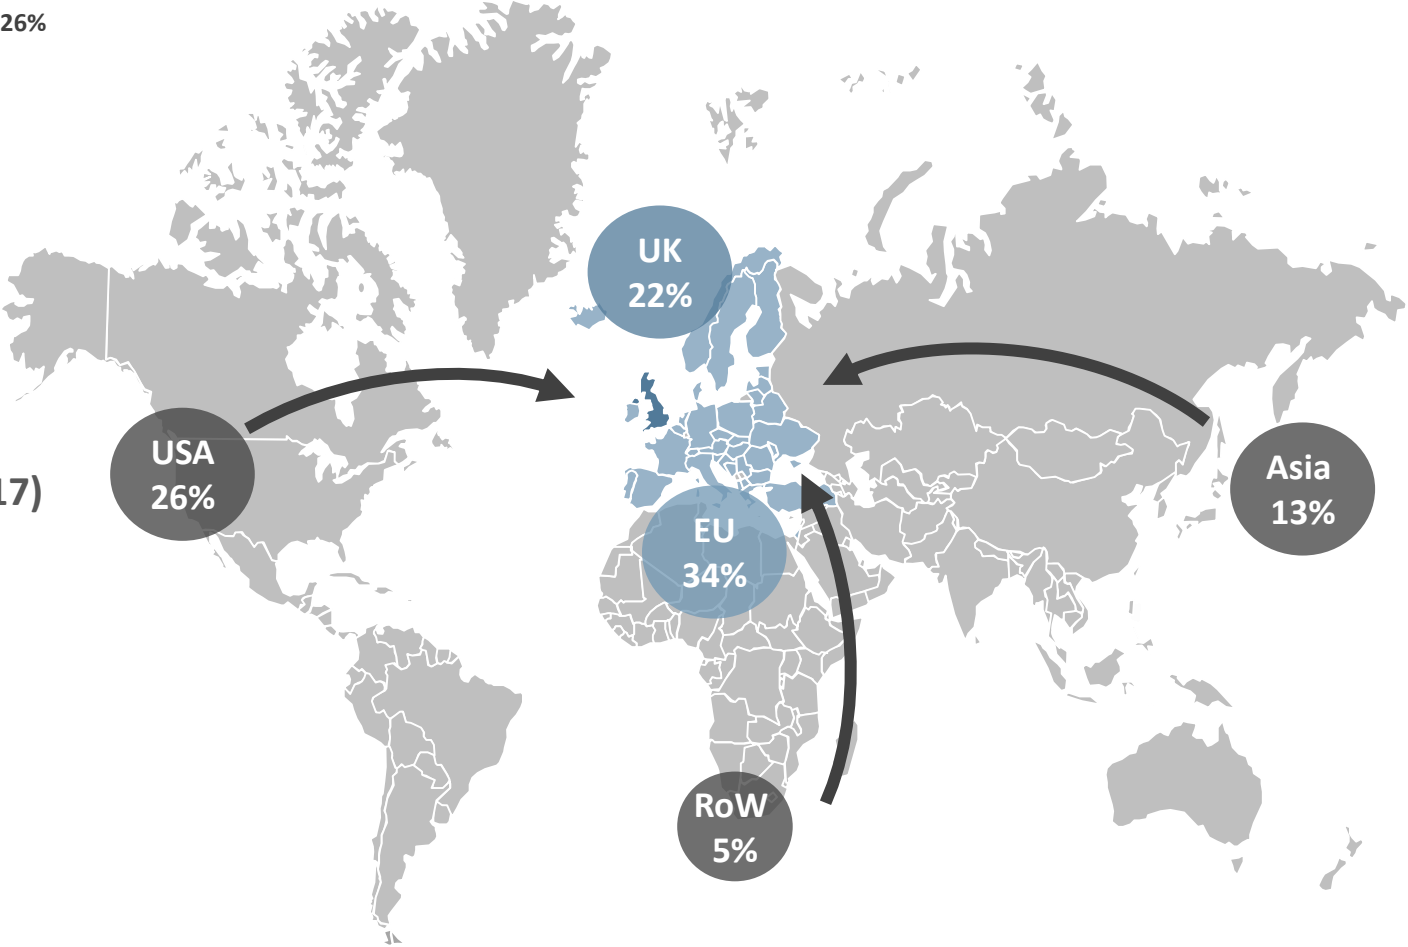

# Together, the UK and USA are responsible for nearly half of all venture capital invested in Europe

Capital invested in Europe by investor HQ location (2017)

Number of European rounds by investor HQ location (2017)

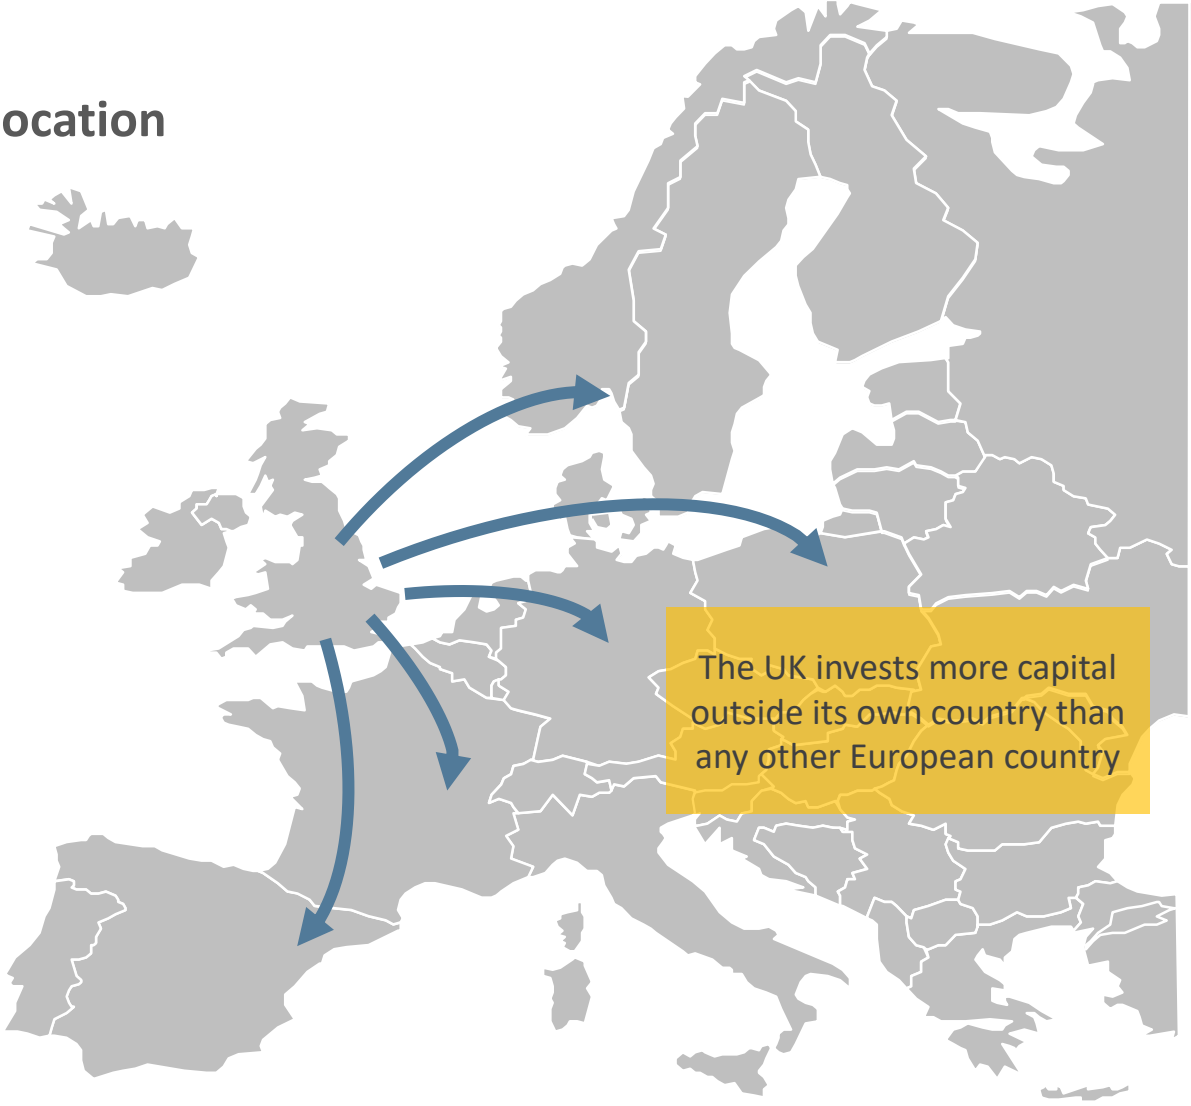

# European investors make roughly 30% of their European investments internationally (non-domestic)

Number of investment rounds, by investor location

# The United Kingdom is Europe's the most important source of non-domestic capital

Number of non-domestic rounds, by investor location

# However, the balance may shift, as French VC firms raised more capital than UK-based VC firms in 2017 for the first time

\$ capital raised by European VC funds

# Investment flows into and within Europe

## Origin of funds (investor location)
